🚀 How to Install **StartTabs**
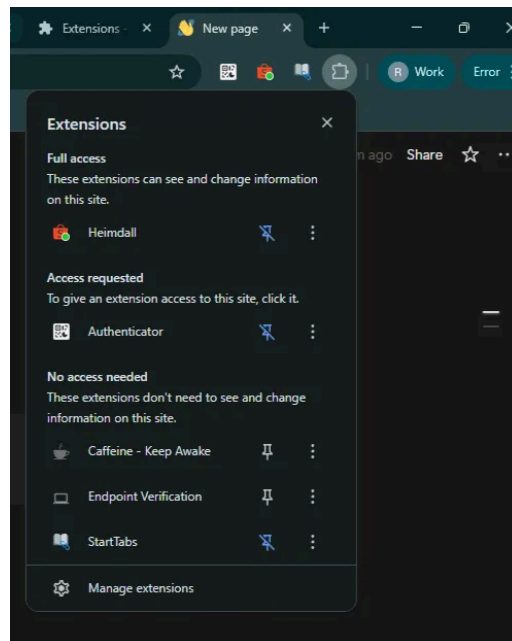

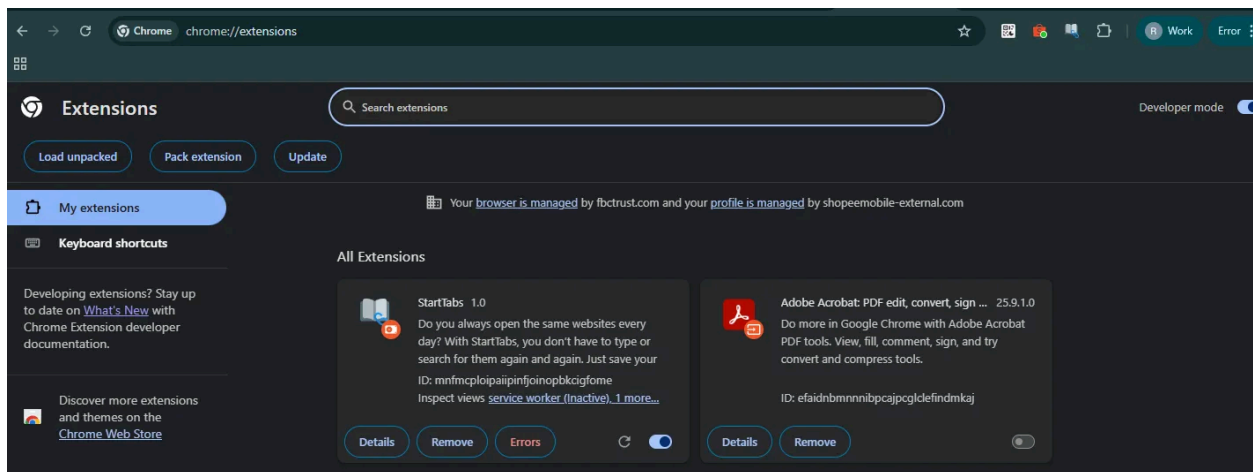

1. **Download** (`StartTabs.zip`).

2. **Right-click → Extract** the file.

   - You will get a folder named `StartTabs`

3. Open Chrome and go to: **Manage Extensions**

4. Turn on **Developer mode** (switch at the top right).

5. Click **Load unpacked**.

6. Select the **StartTabs** folder.

Done🎉

You'll now see 🚀 **StartTabs** in your toolbar.

📌 How to Use

- To add/remove websites → Click ⚙️ **Manage URLs**.

- Click the 🚀 icon → Press **LINK START** → your favorite sites open.

⚡ That's it. No coding, no complicated setup. Have a nice shift!
